## This is the Month

We can expect warm weather and the comfort you can have in a hammock is worth investigation.

### We Have

Hammocks for the baby, hammocks for the middle aged, hammocks for the young and for the old folks who need something different. In fact, the wants and purse of everyone can be suited in our remarkably complete line. The largest in the county.

### In Exclusive Design and Finish:

| Prices |        |        |
|--------|--------|--------|
| \$1.25 | \$2.25 | \$4.00 |
| \$1.40 | \$2.40 | \$5.00 |
| \$2.00 | \$3.65 | \$6.00 |

In colored canvas, \$1.50 each Canvas couches, \$6.25  
Baby safety swings, \$1.50 each

**THE FARMERS  
UNION**

Phone Red 101

Campbell, Calif.

**WE RECOMMEND THIS**  
**\$11,500.00**

**50 Acres** Six room house, 2 large barns, well, windmill and tankhouse. Family orchard, 7 acres 1 year old Blenheim cots, 1 acre cherries, same age. Balance hay land. Very fine hay or orchard land. Last year raised 80 tons of hay. Is surrounded by thrifty and productive orchards. Will consider small acreage near Campbell in part payment. If in bearing orchard would be worth \$20,000 or \$25,000.

Central Avenues, CAMPBELL

## Farmers' Union Add Many New Members

Last Friday evening Roosevelt Local No. 70 of the Farmers' Educational and Co-operative Union of America held the most important meeting since its formation. The occasion was the initiation of a large class of newly-elected members. Representatives from Union, Saratoga, Valley View, San Tomas and Moreland locals to the number of nearly 100 were present as guests.

The Valley View Degree Team performed the initiatory ceremony, at the conclusion of which the Ladies' Drill Team from the same local gave their beautiful drill. Following the initiation all listened with deepest interest to the enthusiastic and instructive address of Homer Craig, the State Vice President. F. J. Currier, the County President, spoke in regard to the marketing of our staple article, the prune, as he recited what had already been accomplished by the Farmers' Union, and what might be done when the membership of the organization is greatly augmented.

Mrs. I. L. Leonard, Chairman of the Refreshment Committee, invited the guests to the banquet hall, where white tables and pink and white ice cream and dainty cakes showed forth the hospitality of Roosevelt local.

Later many repaired to the ballroom where a fine floor afforded the young folks the opportunity of closing the festivities by tripping the gay fantastic.

The fruit growers in this community are coming to realize that co-operation is the thing needed to put their business on a more profitable basis, and, further, that the Farmers' Union is the organization which will enable them to gain this end. The members of Roosevelt Local are among the most prominent people in this neighborhood, as will be noted by the corps of officers which are as follows: F. M. Righter, president; F. E. Duncan, vice-president; H. P. Fairfield, Sec'y. Treas.; G. H. Hubbard, conductor; Mrs. Moulton, chaplain.

### Summer-time Now

Every week-end and holiday should be spent out-of-doors. An outing at once delightful, inexpensive and convenient is the trip by Peninsular Electric to Congress Springs, the natural pleasure park. This charming resort is private property, but visitors are freely welcome to enjoy its beauties and the healthful waters of the mineral spring. An ideal place for picnics; also "The Grill" now open. Round-trip tickets sold only at Peninsular offices. Time-tables and all information furnished on application at Southern Pacific Ticket Office, Campbell.

### A Day in the Foothills

Overlook Farm was the scene of a most enjoyable outing for a party of Los Gatos people and their visiting friends on Tuesday last.

Surely no place is lovelier and the Los Gatos foothills is an ideal region for such an affair—with the grand view of the glorious Santa Clara valley spread out before them like a scene in fairyland. Many were the ah's and oh's of suppressed rapture at the beauty and loveliness that greeted the eyes of the visitors at every turn, as the carriage wound its way up the road.

Arriving at the Farm—the genial host and his good wife bade all welcome and turned an out-door diningroom over to their use.

After a tramp to the falls all returned to a well laden table spread with such viands, as only the descendants of good New England house wives are capable. The hour of feasting was enlivened by wit and mirth and gay reminiscence. Needlework was brought out for those wishing to rest in the shade of the beautiful Madrones and Redwoods, while others tramped the hills for further sport. As the shadows began to grow long the party gathered again around the festal board for a good bye supper and farewell toast, to the ladies who planned the jolly affair. Mrs. O. W. Coldwell, Miss M. J. Waterman and Mrs. F. M. Comden were the hostesses; the guests were as follows: Mrs. Wm. Donaldson of Campbell, Mrs. F. J. Waterman of Goldfield, Nevada, Miss Laura Hannah Stockton, Miss Maud Bryant and Miss K. M. Swearingen of Los Gatos, Mrs. C. E. Kinney of Overlook and Miss S. A. Hanna of Alameda.

### A New Partner

The Press editor is about to take unto himself another half—a business partner. Mr. A. B. Chamberlin, of Suisun, an experienced printer, has purchased a half interest in the business and will be here after September 1st to take charge of the mechanical end of the work. The growth of the business demands additional help, and we have been on the lookout for the right man for sometime. We will speak more about our plans next week.

### No Meeting of Improvement Club

The called meeting of the Improvement Club for last Tuesday evening proved to be in vain. Many people were evidently too busy, others too tired, "forgot" or didn't care. The president, secretary and one member, J. H. Campbell, were the only ones who put in an appearance. The Club had important communications to consider regarding the new State Highway which it is hoped might pass thru Campbell on its way from San Jose to Santa Cruz. It we don't get together and take some action the road will surely miss the town.

## Local and Personal

"I don't know what the truth may be, I tell the tale as 'twas told to me."

Mrs. W. L. Beacock is enjoying a fine new buggy.

J. C. Lloyd and family are home from their camping trip at Alma.

The high and grammar schools will open on Monday, Sept. 11th.

Miss Matilda Hayes returned to her school work at Winters yesterday.

L. J. Cox returned last Sunday from Twin Lakes to harvest his prune crop.

Lost—Chamois bag with money, on or near 1st St. Return to Press. Reward.

A few boxes choice Cling peaches for sale. Mrs. L. F. Shaw, Johnson Avenue. Phone Red 74.

Mrs. J. C. Gordon went to Hollister yesterday by auto from San Jose.

Let Golden West Cleaning and Dyeing Co. do your work for you. Putnam's are their agents in Campbell.

Mr. and Mrs. Miracle accompanied by Mrs. M. J. Wilson and Miss Vaudine Putnam started last Monday for an auto trip to Porterville and Lindsay.

Carl Beacock entertained his Sunday school class at his home on Thursday evening of last week. The boys all had a good time and disposed of a generous amount of ice cream.

Bert K. Kerr, the Optometrist, at 36 S. Second St., San Jose, will examine your eyes carefully; if glasses are needed, fit them correctly; if not, tell you so cheerfully. See him about your eyes.

In the Call's Booklovers' Contest the first prize, a \$2100 touring car, was won by Edith C. Gage of Saratoga; and J. E. Palmer came out 14th, getting a fine Elite Gratonola; and J. D. Blaine a \$6 silver mesh bag.

Lloyd Gardner returned last Saturday after a week at the Bay Cities, as the guest of his aunts, Mrs. LeRoy Bean of Oakland, and Mrs. Keyston of San Francisco. Lloyd made the trip up and back from San Jose with Mr. and Mrs. Bean in their machine. When the Beans returned last Saturday they took Dorette and LeRoy Gardner home with them for a week's vacation.

Ladies' hair work, working up combings. Mrs. A. W. Adams, Dillon Ave.

### Mrs. Clark and Daughters Move to San Jose

Mrs. M. Clark and daughters Harriet and Mary and Miss Abbie Gilbert have this week moved to San Jose, where they will reside at 106 North Fifth street. Miss Harriet will take a position as private secretary of Dr. Wayland, and Mary will attend the Normal School. Harriet will give up her work at Putnam's probably this week and begin her new duties at once. She will be succeeded by Miss Beulah Crow.

### Typhoid Fever

Moses Moulton lies very ill with typhoid fever at the home of his father on Johnson avenue. He returned from British Columbia about two weeks ago where he has been in the employ of the British government for three years in the entomology department. Before starting for home he did not feel well and as soon as he reached home he was taken sick. While in a delirious condition he called for his brother Dudley who at the time was on an expedition in the mountains in Kern county and at Mt. Whitney. Dudley with a companion had been off in the wilds for three weeks and just happened to return to town and received a telegram of his brother's illness and came home immediately, arriving last Tuesday.

### Christian Science Services

In Odd Fellows' Hall every Sunday morning at 11 o'clock. Subject for August 27—Christ Jesus. The public is cordially invited.

### Therese Oliver-Hixley

B. M.

### Teacher of Singing

Reception hour 11 to 12 Saturdays, after Sept. 1st.

Campbell Studio

At home of Mrs. Putnam

Cor. Los Gatos Road and Sunnyside Avenue.

## SUMMARY OF PAST WEEK'S COAST NEWS

Interesting Events Among Our  
Neighbors in the Far  
West Reviewed.

What Has Transpired on the Border  
of the Broad Pacific From  
Alaska to Mexico.

Grass Valley.—Lyman Gilmore, amateur aviator, flew half a mile here in a machine of his own invention and construction.

Fresno.—Hank Monk, an odd jobber, has been sentenced 112 times to the county jail on charges of drunkenness, according to the records of the Police Courts.

Sacramento.—Secretary of State Jordan has invited a test case by refusing to file the trade mark of R. W. Nelson of San Francisco, who wished to use the firm name of the "Exposition Journal."

Vallejo.—The body of Robert Robosky, a barber who was drowned in the Mare Island channel on August 6th, when he jumped off a yacht to try to save a drowning friend, was recovered from the Napa river.

Modesto.—In an effort to save her baby's life, Mrs. M. L. Seranton caught it from the buggy seat and sprang from the vehicle when her horse began to run away. Mother and child were probably fatally hurt.

San Francisco.—While wheeling her baby along St. Mary street at 2:30 in the afternoon, Mrs. Fath was held up by two men, who drove up, placed revolvers to her head and took away her handbag. The purse contained \$16.35.

Berkeley.—After four trials of Daniel F. Duggan, a West Berkeley grocer charged with conducting a "speak easy," had resulted in disagreements of the jury, City Attorney R. C. Staats asked that all seven charges against Duggan be dismissed.

Tacoma, Wash.—Peter Olson, proprietor of a hotel here, is the first defendant to be prosecuted for a violation of the law passed by the last Legislature in equipping beds in his hotel with sheets less than 90 inches in length.

Los Angeles.—A school building which housed the city's truant school was burned down with a loss of \$10,000, and in the stampede which followed the fall of a blazing steeple into the crowd in the street, several women and children were badly trampled and bruised.

Redding.—Harry Collier, charged with horse stealing at Canyon City Or., where he broke jail, was arrested in Dunsuir, at the foot of Mt. Shasta, but escaped from the hotel room in which he was placed by the Dunsuir constable. He caught a train to Redding, but was rearrested and put in the city jail.

Sacramento.—State Printer W. W. Shannon has completed the printing and binding of the 1911 statutes. They make the largest volume of its nature printed by the State. It contains 2556 pages, while the 1909 volume of statutes contained 1377 pages. The statutes are so bulky that private firms are printing them in two volumes.

San Pedro.—Maintaining an average speed of 22.61 knots per hour, the officers of the steamer Yale are receiving congratulations for establishing a new record on the Pacific Coast for a coastwise steamer between San Francisco and San Pedro. The trip was made from San Francisco to the San Pedro docks in 16 hours and 15 minutes.

Sacramento.—The Board of Equalization announces that the State tax this year for the Panama-Pacific Exposition will be 5 cents on a hundred dollars. This announcement came after the receipt of an opinion from Attorney-General Webb to the effect that the Board may allow the percentage it sees fit for the delinquencies in figuring the rate so as to secure the required amount of \$1,250,000 annually.

Walnut Creek.—That work is soon to begin in excavating for the tunnel which is to give the Oakland and Antioch (Railway Company) an entrance into Oakland is evidenced by the fact that a camp of the company's workmen has been established at the end of Redwood canyon, where the excavating is to begin. There is a large force of men at the camp. The tunnel is to be rushed to completion and will be ready for use within a year.

## THE WINE MEN ORGANIZE TO PROTECT GRAPE INDUSTRY Form Association to Oppose the Local Option Movement.

San Francisco.—Grape growers and wine-makers of California are aroused to the necessity of promptly organizing. Everywhere they are enthusiastic about the new State association, which is raising a campaign fund not only to educate the people of California as to the importance of the viticultural industry, but to show those most interested in grape growing and winemaking the dangers of the new Wyllie local option bill.

The principal objection that the wine men have to this bill is the fact that when a supervisorial district goes dry, the license of every hotel, restaurant, cafe and club is revoked and a large and important avenue of distribution is closed.

"If visitors coming into our State cannot secure our wines with bona fide meals at the great tourist hotels," said H. F. Stoll, secretary of the Grape Growers' Association of California, "we can hardly expect them to call for them when they return to their homes in the East, and it is these wealthy travelers on whom the wine men largely depend to have the merits of our choice vintages spread throughout the country."

### Admission to Statehood Blocked.

Washington.—President Taft, in a special message to the House of Representatives, vetoed the joint resolution providing for the admission of New Mexico and Arizona to statehood. His reasons for exercising the executive power of veto was based on his disapproval of the recall of Judges clause in the Arizona constitution. The fact that New Mexico's statehood was bound up with that of Arizona meted out to her the same fate, and neither territory can come into the Union at this time unless friends of the joint resolution in Congress can muster the two-thirds vote necessary to pass the resolution over the President's veto.

### Nautical Branch of University.

Vallejo.—The gunboat Princeton is now on its way to Tutuila, Samoa, to relieve the little Annapolis, which has been stationed in the South Pacific for the past two years. Just what will be done with the Annapolis is a secret which the naval authorities refuse to give out. It is known that it will come to Mare Island for extensive overhauling, and the general opinion is that it will be used in the proposed nautical branch of the University of California, provision for which was made at the last session of Congress.

### Future Figures for Grapes.

Lodi.—The grape growers of the Victor district, east of Lodi, who recently leased their winery to George West and Son, have received a proposition from the Wests whereby they will contract for the grape out put for a number of years. The contract that the growers are asked to sign calls for \$9 a ton for Zinfandels this year, \$10 in 1912, \$11 in 1913 and \$12 in 1914, and \$12 for Alacanta Bouschet grapes this season. It is likely that many of the grapes will be contracted for at these prices.

### Soldiers as Fire Fighters.

Washington.—Notwithstanding the opposition of the members of the general staff of the army, the Military Affairs Committee of the House directed that a favorable report be made on the Raker bill, authorizing the use of the regular army soldiers as fire-fighters in the national forests in California at any time they may be needed during the summer months.

### Peace Declaration to the World.

Berne, Switzerland.—The peace advocates have closed their sessions, having agreed on the essentials to be included in a declaration to the world, in which their hopes and their program will be set forth. The final act of the conference was to send a telegram to Andrew Carnegie at Skibo castle, whose peace foundation made the gathering possible.

### Mysteriously Shot.

Willits.—While standing on the rear platform of a train running from here to Sherwood, William Ward, a brakeman, was hit in the head by a stray bullet, presumably fired by a hunter. He staggered into the car and died within a few minutes. He was 30 years of age and leaves a wife and child in Healdsburg.

### Farmers' Free List Adopted.

Washington.—The House adopted the conference report on the farmers' free list bill by 160 to 102, after eliminating the House lemons amendment and concurring in all the Senate amendments. Under agreement with the Senate, corn was stricken from the free list provisions of the Senate amendments.

## Decision Says Facts Did Not Warrant Court's Delay

San Francisco.—The famous graft cases at last have been wiped from the slate.

By a decision of the District Court of Appeals Judge Lawlor was ordered peremptorily to dismiss the so-called "trolley franchise" cases, which have been on the trial docket for a year and a half.

For 491 days a motion has been pending to dismiss these cases and the defendants have been on record as trying to get a trial for 588 days.

The decision was written by Presiding Justice Thomas J. Lennon and concurred in by Justices Frank J. Kerrigan and N. P. Chipman, the latter having been assigned to the First District in place of Justice Shaw.

Tirey L. Ford, Patrick Calhoun, William M. Abbott and Thornwell Mullally are equal petitioners in the case, although Ford made the first plea and the others intervened. The cases against each are ordered dismissed.

They were indicted on a charge of having bribed Supervisor F. P. Nicholas in connection with the United Railway trolley franchise.

The principal reason given by the Court of Appeals for granting the writ is that the cases have been continued because James L. Gallagher, supposed to be the principal witness, is absent, when as a matter of fact, Gallagher was never subpoenaed in these cases.

It concerns the public that there should be an end of litigation in criminal, as well as civil cases, and law will not tolerate the repeated and never ending postponement of a trial upon the vague hypothesis that perhaps, at some indefinite time in the future, a fugitive witness may possibly return to the jurisdiction, and thus be available as a witness in the case.

## Lower Retail Fruit Prices in East Predicted

Chicago.—Cut out meats and vegetables and live on fruit. This is the one best bet if you would decrease the cost of living. Never in history has there been a better prospect for bumper crops in all varieties of fruit, say commission merchants. Prices are to be slashed from a third to half under those of last year. Here are a few of the predicted retail prices:

Concord grapes 16 to 18 cents per bushel; peaches 25 cents per one-fifth bushel basket; apples \$1.75 to \$3 per barrel (all varieties); pears \$1.25 per bushel; plums \$15.00 per bushel.

South Water street merchants estimate that there will be fully 10,000 carloads of fruit shipped from the Michigan fruit belt this year. Not only from Michigan, but from eastern vineyards and western apple orchards come the same reports of bumper crops.

The first of the Michigan peaches, the early Alexanders, were shipped from Ludington August 4th, fully two weeks earlier than in previous years. This is not the best variety but within the ensuing two weeks a later and finer kind will be shipped in large quantities.

Although Georgia peaches suffered a severe blow from the cold snap March 4th, commission merchants believe that the Michigan supply will more than counterbalance the loss.

## San Francisco Decorated For Eagles' Convention

San Francisco.—A thousand passengers were booked for an "Eagle Special," which brought members and other merrymakers from Petaluma and Healdsburg for the big parade during the Grand Aerie session, here this week. Fresno, San Jose, Stockton and Sacramento brought large delegations, and the advices from Pacific Coast aeries show that 50,000 people are attending from points west of the Rocky mountains. The grand officers arrived in this city Tuesday and established headquarters in the St. Francis hotel, where the entire mezzanine floor has been reserved. Conrad H. Mann, the Grand Secretary, and Frank E. Hering, former Grand President and candidate for the office for the coming year, at once took up the routine business of preparing for the sessions of the grand body. John S. Parry, a former Grand President, and well known in local political and business circles, is a candidate for the office to be vacated by Conrad H. Mann.

The city has co-operated with the decorating committee of the Eagles in preparing a scheme of street decorations and the Downtown Association has had all its members to make a display. The city is now in holiday attire.

## Ad Valorem Tax This Year Not Necessary

Sacramento.—Asked whether or not the approximate figures showing the \$5,495,000 had been paid into the State Treasury by the corporations under the new tax law indicate definitely that there will be no need this year of an ad valorem tax and also that the new system of taxation has proven a success, State Controller Nye said:

"The time has passed when there is any danger of an ad valorem tax being necessary for the purpose of providing funds for the State Government. 'Yes, the tax payments, while the total does not represent the first installment only, would indicate that sufficient money will be provided by the corporation tax to run the State. I do not think there is any doubt of the outcome.'"

It has been estimated that more than \$20,000 in payment of the taxes on small corporations came in the form of money orders through the postoffice in Sacramento. How many of the 20,000 corporations have failed to pay, how many paid up both installments and even the exact total of all payments are not known at this time and will not be known for several days.

## "Squirrel Free Zone" Created By Federal Squad

Modesto.—A Federal squirrel camp has been established a few miles north of Modesto by Dr. Rupert Blue of the United States marine hospital service. There are 20 men in the squad and they will work to create a "squirrel free zone," exterminating every squirrel within certain boundaries and gradually extending the boundaries of the zone as the rodents are exterminated.

A number of plague-infected ground squirrels have been found in this section by Dr. Blue and his assistants, and a special effort will keep the infection from spreading to the foothills, where extermination would be difficult.

Dr. Blue has been in charge of the squirrel inspection crew in this county for the last two weeks.

Hotel in a Twister.

Phoenix, Ariz.—A windstorm and cloudburst demolished the Commercial hotel and several other buildings at Winkelman, the eastern terminus of the Arizona Eastern railroad, about 100 miles east of this city. One woman was injured.

Cuban Editors Deported.

Havana.—Jose Marie Villaverde, managing editor of the paper, "Cuba," and his nephew, Manuel Villaverde, an editorial writer on the "Cuba," were seized at the residence of the former, placed on board a steamer and deported to Spain.

## FARMERS AND DEALERS MAKE BIG PROFITS IN BARLEY

The Price Paid For This Crop is at  
the Top of Grain Record.

Stockton.—The sudden and unexpected advance in the cash barley market has created much excitement here, and several grain men have already made immense profits by buying on the call board and playing cash grain. When barley commenced to move upward they bought at \$1.10 and most of them have sold out at \$1.47½ to \$1.50, while a few are still holding for better figures.

The farmers have been selling their grain for the past ten days, and while they did not get over \$1.40 for most of it, they declare they are well satisfied and will make large profits.

Barley can be raised at a good profit at 80 cents a hundred, and those who have been farming for years never hesitate in selling when the market touches \$1.30, unless the price advances so rapidly they cannot make contracts. This proved the case in several instances of late. Farmers who would have disposed of their holdings at \$1.35 found on reaching grain row that the price had gone to \$1.45 and a few secured \$1.50, much to their surprise. This year the farmers will make the greatest profits ever known on grain.

### Humane Society Plans Convention.

San Francisco.—Preparations for the thirty-fifth annual convention of the American Humane Association, which will be held in San Francisco October 2d, 3d and 4th, are occupying the attention of the Humane societies throughout the State. The American Humane Association is the only national anti-cruelty federation which represents the Humane societies of the United States. The meeting in San Francisco will be the first one ever held west of the Rocky Mountains in the history of the Association, and the 50 odd societies of the State are preparing to give its delegates a royal welcome.

### Customs Laws Strictly Enforced.

New York.—Lieutenant-Colonel G. W. Dinkelspiel, a lawyer of San Francisco, and a member of the staff of the Governor of California, has returned from an European tour. He said that the merchants on the other side were all troubled over the marked decrease in purchases made by Americans abroad, which decrease was due to the strict enforcement of the custom laws on this side. With smuggling stopped, the tourists found it more satisfactory to buy in this country, and the foreign merchants felt the loss in trade.

### Deer Work on Orchards.

Vallejo.—Deer are so abundant in the Green and Wild Horse valleys in the northern part of this county that the animals are becoming a menace to fruit owners. Hunters returning from the fruit district say that the orchardists are at their wits' end as to how to stop the depredations of the deer, and have declared a war of extermination. It is claimed by the fruit men that the protection accorded deer in the closed season is so stringent that the animals have multiplied rapidly, until they have become a pest.

### Grasshopper Clouds in Kansas.

Independence, Kan.—Hordes of grasshoppers have visited this city. Old settlers said there had not been such a visitation of the pest since the early days, when they had destroyed the crops and ate everything in the shape of vegetation. They sat thick on the streets here and covered the walls of many buildings. They did much damage in a short time.

### Trunk of Jewels Found.

Nebraska City, Neb.—A trunk containing jewelry said to be valued at \$8000, checked to this city by Will Kortland, salesman for an Omaha firm July 31st, which disappeared from the depot here, was found on the high school grounds. It had apparently been abandoned by the thieves. It will be sent to Omaha before being opened.

### Amusement Park Destroyed.

Cincinnati.—After an all-night fight, firemen succeeded in getting under control the fire which consumed a portion of Chester Park, an amusement resort, and swept over five acres of Farrin-Korn Company's lumber plant, adjoining it. The total loss will approximate \$400,000, of which \$300,000 will be borne by the lumber company.

### Owens Lakes of Killarney.

London.—W. B. Bourn of San Francisco has bought the estate of Baron Ardilaun of Muckross, Ireland, including part of the Lakes Killarney. Bourn's daughter and her husband, Arthur Rose Vincent, will reside on the estate. The price paid for the property was \$250,000.

Events in Every Quarter of  
the Terrestrial Globe.

Pottsville, Pa.—Two men were blown to pieces in a powder mill explosion at Cressona, a few miles from here.

Boston.—The special ambassador of the United States at the coronation of King George, John Hays Hammond, has returned to the United States.

Paris.—Dr. Georges Dieulafoy, aged 72, a distinguished member of the faculty of medicine of the French Institute and a member of the French Academy, is dead.

St. Petersburg.—A dispatch from Kars, Transcaucasia, says that, during a careless demonstration of a cannon to a company of soldiers, a grape shot was discharged, killing four persons and wounding 14.

Washington.—The Navy Department announces that the new monument erected on the Vicksburg National Military Park in honor of the Union navy of the Civil War, probably will be dedicated April 16th, next year.

Guthrie, Okla.—While attempting to rescue Frank Leman, a merchant, from the Cimarron river near Ripley, John L. Faris, vice-president of the Ripley National Bank at Ripley, was caught by an under current and both were drowned.

Washington.—A resolution for a special investigation of the International Harvester Company along the lines of the inquiry into the United States Steel Corporation was introduced by Representative Foster of Illinois, a Democrat.

London.—The indemnity of \$164,347 awarded by King George as arbitrator to the United States in the settlement of the Alsop claim against Chile was paid at the American Embassy by Augustin Edwards, the Chilean Minister to Great Britain.

Ottawa, Kan.—Lige Chilon, a bachelor farmer, is dead and Kilby Pence and his son, George Pence, also farmers, are in a dangerous condition from breathing the fumes from a blast of black powder in a well which they were digging four miles south of Wells-ville.

Washington.—Because of the threatened trouble in Lower California, incident to the Mexican Government's endeavors to quell disturbances there, a troop of United States cavalry has been ordered to the frontier to patrol the border from Yuma, Ariz., to San Diego, Cal.

Valdez, Alaska.—The stamp mill and power plant of the Cliff mine has been destroyed by fire, with a loss of \$12,000. The boilers were saved and the stamps are probably uninjured. Orders for new equipment were cable to Seattle and the mill will be rebuilt as soon as possible.

Juarez, Mexico.—A severe epidemic of black smallpox is raging at Guadalupe, San Ignacio, Moctezuma and other points south and east of this city. The disease is pronounced the most virulent form of the scourge and there have been many fatalities already, especially among adults.

Liverpool.—At a meeting of the executives of the Amalgamated Society of Railway Servants, the Society of Locomotive Engineers and Firemen and the General Railway Workers' Union, a resolution was unanimously adopted declaring a general railway strike throughout the United Kingdom.

Washington.—Senator Works designated Marion H. Compton of Los Angeles for appointment to West Point, and R. G. Barrows of Pasadena and A. W. Peake of Redondo as alternates. They stood highest in the competitive examination held by the board of which General Adna R. Chaffee was president.

Juneau, Alaska.—Minnie May Sabin, the 18-year-old daughter of Mark Sabin, fell over a snow cliff while climbing Mount Juneau, and, striking on the jagged rocks 185 feet below, received injuries from which she died a few hours later in a hospital. Her body was frightfully bruised and her skull crushed.

Victoria, B. C.—E. Manning Lewis, traveling representative of the port of Bristol, has received a cablegram announcing that the Maple Leaf line will establish a line of three steamers between Europe and the Pacific Coast of North America, making calls every eight weeks at Victoria, Vancouver, Seattle and San Francisco.

# THAT AWFUL BACKACHE

Cured by Lydia E. Pinkham's  
Vegetable Compound

Morton's Gap, Kentucky.—"I suffered two years with female disorders, my health was very bad and I had a continual backache which was simply awful. I could not stand on my feet long enough to cook a meal's victuals without my back nearly killing me, and I would have such dragging sensations I could hardly bear it. I had soreness in each side, could not stand tight clothing, and was irregular. I was completely run down. On advice I took Lydia E. Pinkham's Vegetable Compound and Liver Pills and am enjoying good health. It is now more than two years and I have not had an ache or pain since I do all my own work, washing and everything, and never have the backache any more. I think your medicine is grand and I praise it to all my neighbors. If you think my testimony will help others you may publish it."—Mrs. OLLIE WOODALL, Morton's Gap, Kentucky.

Backache is a symptom of organic weakness or derangement. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so surely as Lydia E. Pinkham's Compound.

Write to Mrs. Pinkham, at Lynn, Mass., for special advice. Your letter will be absolutely confidential, and the advice free.

Big Ears Also.  
The crossed-eyes man was watching the activity of Niagara.

"What a big waste!" he remarked to his friend.

The very stout lady standing nearby, looked at him angrily.

"Mind your own business," she snapped.

Attempts were made during the aviation meet at Rheims, France, to take moving pictures from aeroplanes.

Whittemore's  
Shoe Polishes

Finest in Quality. Largest in Variety.  
They meet every requirement for cleaning and polishing shoes of all kinds and colors.

## FIRST RECORDED STRIKE A CUT IN PIECE RATES

Children of Israel Walked Out and Stayed Out for Forty Years.

The first strike recorded in history was a strike against a cut in piece rates. "And the Egyptians made the children of Israel to serve with rigor; and they made their lives bitter with hard bondage, in mortar and in brick, and in all manner of service." \* \* \* And Moses and Aaron went in and told Pharaoh, "Let the people go that they may hold a feast." \* \* \* And the King of Egypt said unto them: "Wherefore do ye \* \* \* let the people from their works? \* \* \* ye make them rest from their burdens." And Pharaoh commanded the same day the taskmasters \* \* \* saying: "Ye shall not more give the people straw to make brick as heretofore. \* \* \* And the tale of the bricks which they did make heretofore, ye shall lay upon them; ye shall not diminish ought thereof; for they be idle; therefore, they cry, saying: 'Let us go.' \* \* \* Let there more work be laid upon the men \* \* \* and let them not regard vain words." Pharaoh said to the children of Israel: "Ye are idle; ye are idle. \* \* \* Go therefore now and work; for ye shall not straw be given you, yet ye deliver the tale of the bricks." What followed is a matter of history. They walked out and stayed out for forty years, and then their descendants got other and better jobs.—Harrington Emerson in Engineering Magazine.

England's One Archbishop.  
England possesses one, and only one, archbishop. He is the rector of Hacombe, in Devonshire, who will be found duly credited with the title of "archbishop" in "Crockford." The archbishop of Hacombe can claim the right to wear lawn sleeves, to sit next to the bishop of Exeter at all public functions, and to be exempt from all "visitations," except those of an archbishop; but the present rector claims immunity only from his archbishop's visitation. The office of archbishop must be of immense antiquity, because it is found among the Copts of Egypt who succeeded from the rest of Christendom in the fifth century.

Diplomacy.  
A North Dakota German farmer aspiring to fill an appointive office wanted to keep on good terms with both parties. At ten on election night the result was still uncertain when he was called upon for a speech.

"Ve meets," he said, "to celebrate dis glorious victory. Ve knows not yet vich vay it goes. Hurra! Hurra! Hurra!"—"Success Magazine."

And So It Goes.  
Sister—If you aren't good I'll tell mamma, then she'll tell papa, and he'll whip you.

Freddy—Then I'll cry and grand-father will give me some candy and I won't give you any.—Philadelphia Inquirer.

Saw a Moth Ball.  
Hoax—Here's an article written by a scientist, who says that insects have emotions. He claims he has frequently seen a mosquito weep.

Joax—Well, I've often seen a moth ball.—Philadelphia Record.

New Use for Breakfast Food.  
"How did Genevieve get rid of her caller who stayed so late?"

"Genevieve is a girl of very delicate feelings. She merely brought in a plate of breakfast food."—Baltimore American.

SHOW CARD writers earn \$1 an hour, Day and evening classes. 915 Van Ness Ave. S. F.

A centennarian who died recently in England was the father of twenty-one children and left nearly 300 descendants.

The Hard Loser always wants Another Hack at it, and often brings Home the Bacon!

Nearly all of Japan's sulphur output is absorbed by the United States and Australia.

## Where is Your Hair?

In your comb? Why so? Is not the head a much better place for it? Better keep what is left where it belongs! Ayer's Hair Vigor, new improved formula, quickly stops falling hair. There is not a particle of doubt about it. We speak very positively about this, for we know. Does not change the color of the hair.

Formula with each bottle Show it to your doctor Ask him about it, then do as he says

Ayer's

Indeed, the one great leading feature of our new Hair Vigor may well be said to be this—it stops falling hair. Then it goes one step further—it aids nature in restoring the hair and scalp to a healthy condition. Ask for "the new kind."

Made by the J. C. Ayer Co., Lowell, Mass.

## MUNYON PREACHES HOPE PHILOSOPHY

New Association Gains Many Members—Faith's Curative Power.

Noted Health Expert Gives Reason for Big Success in Medicine.

Tremendous success has attended the organization of the new Munyon "Hope Cult." Professor Munyon claims that he has secured more converts than he even anticipated, and says that his "Hope Cult" is growing in leaps and bounds. It is said that the total membership of the association throughout the United States is now well over the half million mark. In a statement for publication, Prof. Munyon said:

"I want to talk to every sick, ailing and despondent person in this city. I want to preach my new creed to them. I want to tell them about my new philosophy of health, which is the fruit of a lifetime of study and experience in dealing with sick folk.

"I want to expound the Great Truth that I have learned that there is more curative power in an ounce of Hope than in pounds of Dope. That sick people should not take medicine except as a medium through which the great curative power of Hope may be made effective. Medicines are necessary in the present state of the world's progress because they give a patient physical support and strength and renewed vigor with which to brace up the will power. One knows, from the action of the proper medicines, that he or she is feeling better by this inspired hope and faith, which complete the cure.

"I think that probably half a million persons at least in the United States have declared themselves cured by my medicines, and I know that these people have had the best remedies medical science had to offer. I have always contended that if there is any virtue in medicine my followers should have the best, but I verily believe that more than one-half of those who have been lifted to health from the bondage of chronic illness, through taking my medicines, have been really cured by the knowledge that they had the utmost in medical lore at their command, and the Hope this inspired.

"I am not in any sense a practicing physician. I employ at my laboratories in Philadelphia a large staff of expert physicians and chemists, and I have many other physicians in various cities of the United States detailed to give free advice to the sick and afflicted. My headquarters are at Munyon's Laboratories, 53rd and Jefferson Sts., Phila., Pa., and I have there a staff of duly registered physicians and consulting experts, and to all who desire it I offer the best of medical advice absolutely free of charge."

Write today, addressing Prof. J. M. Munyon personally, and your letter will have a special care.

Put Him Wise.  
Minister—Johnny, do you know where little boys go that fish on Sunday?

Johnny—Sure. Follow me an' I'll show you.

If ever our Ship Does come in, we want her to Swing Along under her Own Sail!

Unique Map Made for Aviators.  
Aviation has made such advances within the last year that it now takes rank with yachting and automobilism in that special maps, maps for air-men only, have been published.

The aviator's map, the only complete one in existence, was published in Paris a short time ago, was drawn up by the army geographical department and is evidence of the value set upon aeroplanes by the French war office. The new map was drawn to silence the complaints of the air-men who declared that previous maps were incomplete and were little better than useless in the London Mail flight from Paris to the eastern frontier. Experimenting in the making of a new map was begun by Commandant Polach, who used Chalons, the home of the famous flying school of Mourmelon, as the first subject. It is the airman's map of this country that has just appeared. Printed brightly in six colors, it corresponds with what an aviator would see of the country below him if he were flying at a height of 600 feet. Roads are shown by a white line; woods and forests by splashes of green; the ups and downs of the land by shading—light for a low elevation, dark for a high one; cities and towns stand out in red. Wind mills, church towers, factory chimneys, telegraph wires, and even tall and isolated trees are indicated much in the same way as are light-houses on a mariner's map. Spots where it is dangerous to land owing to the uneven land are marked with red crosses for the airman to avoid. It is proposed to continue the work and map the entire country of France in this way for the benefit of pleasure seeking airmen and for the government's convenience as well.

## FEATURES OF NEW COMMON SCHOOLS IN GERMANY.

Attendance Compulsory for Apprentices in Mercantile Concerns.

The new common schools in Bremen are provided with bathing halls, where the scholars may take weekly shower baths. At present bathing is not compulsory, but is under the regulation of the school board. Objections of parents are met with consideration. Soap, brushes and towels are supplied by the school.

The State has provided continuation schools, where industrial apprentices can further their education so as to enter a school of technology. According to law, all male employees of industrial concerns under 18 years of age (except assistants and apprentices in pharmacies and commercial establishments) are compelled to attend the continuation school for three years. A bill has been brought before the Bremen Senate making attendance at these schools compulsory for the assistants and apprentices in mercantile concerns. The bill is expected to pass.

Another bill pending before the Senate provides for instruction in English in all the public schools, both pay and free, in the city. It is urged that as Bremen is a seaport town having intimate commercial relations with England and America, a knowledge of the English language would be of value to a great number of people.—Consular Report.

You Can Get Allen's Foot-Ease FREE.  
Write Allen S. Olmsted, Le Roy, N. Y., for a free sample of Allen's Foot-Ease. It cures sweating, hot, swollen, aching feet. It makes new or tight shoes easy. A certain cure for corns, ingrowing nails and bunions. All druggists sell it. 25c. Don't accept any substitute.

Filling Up the Earth.  
The preliminary figures of the census taken last year in Germany, which give a total population of the empire of 64,896,831, as compared with 60,641,489 in 1905, show a rate of increase of 7.02 per cent., a falling off of 0.56 per cent. per decade. The greatest decennial rate of increase is 30 per cent. in Australasia, North America following with 20 per cent., South America 15 per cent., Africa 10 per cent., and Asia at the bottom of the list with six per cent. For the whole earth the mean decennial rate of increase is 8 per cent., and at this rate the 28,000,000 square miles comprising the fertile regions of the earth—which Ravenstein computed can only support 207 persons per square mile—will have their maximum population of 5,994,000,000 persons in the year 2,072. This estimate allows 14 persons per square mile in the 18,000,000 square miles of steppes and deserts.

Up-To-Date.  
Uncle Mose, a plantation negro, was being asked about his religious affiliations.

"It's a preacher, sa," he said.

"Do you mean," asked the astonished questioner, "that you preach the gospel?"

Mose felt himself getting into deep water.

"No, sah," he said. "Ah touches that subject very light."—"Success Magazine."

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

More medicinal preparations are manufactured in Brazil than in all the other Latin-American countries combined.

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. The favorite family laxative.

Only one small portion of the United States, the southern tip of Florida, never has experienced freezing weather.

## Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. THE ONE REMEDY which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle-wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine of known composition. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.

New on the Job.  
"Your wife wants you on the telephone," announced the new boy in an office where two different phones were installed.

"Which one?" inquired the boss, thinking of the two telephones.

"Please, sir," said the boy, "I don't know how many you have."—National Monthly.

Sudden Change.  
Little Edgar (aged 5)—Uncle John, did you used to be a little boy like me? Uncle John—Yes, Edgar.

Little Edgar—Didn't you feel awfully queer for a few days after you got to be a man?—Exchange.

 Good returning until Sept. 14th.

For particulars, write or call on any Agent.

## Southern Pacific

Judge E. H. Zion of Modesto visited at  
 the home of his father, I. Zion, here last  
 Sunday. He came for a farewell to his  
 brother, William F., and family who re-  
 turned to their home at Union, North  
 Dakota, last Monday.

Mrs. W. W. Stewart and daughters are  
 expected home Saturday after a sojourn  
 of three weeks at Pacific Grove. Rev.  
 and Mrs. C. W. Merrill, of Saratoga,  
 will occupy their cottage at the Grove  
 for the next two weeks.

#### Congregational Church

The theme for Sunday morning is  
 "The Penknife vs. God's Word, or The  
 Age Long Conflict," preceded by a five  
 minute talk to the boys and girls. In the  
 evening there will be a Stereopticon  
 evening on Turkey. The slides used  
 were all made from photo's made by Dr.  
 H. H. Atkinson of Harpoot, Turkey, and  
 so represent his personal experiences.  
 All are cordially invited. Evening serv-  
 ice at 7:30.  
 GEO. E. ATKINSON, Pastor.

## Local and Personal

Mr. and Mrs. John F. Duncan spent  
 Sunday at Palo Alto as the guests of Mr.  
 and Mrs. Easton Carter.

Mrs. Sykes and daughter, Miss Abbee,  
 are moving to the L. C. Watson cottage  
 recently vacated by Mr. and Mrs. Graver  
 Rubell.

Mr. and Mrs. R. Alison and Lucile re-  
 turned Wednesday from their outing in  
 the mountains. Ralston says he saw no  
 lions up there.

Order your Rubber Stamps, Stencils,  
 Seals, Numbering Machines, etc., at the  
 Press office. A big catalog of samples  
 to select from.

Mrs. LeRoy Bean of Oakland and her  
 two little daughters, Antonette and  
 Nancy, were the guest of Mrs. L. C.  
 Dick last Saturday.

Mrs. L. F. Shaw has returned from a  
 visit to Carmel-by-the-Sea, where she  
 was the guest of Mrs. H. C. Fleming and  
 daughters, of the Willows.

Mrs. F. E. Clavir and child, formerly  
 of Campbell, but now of Richmond were  
 the guests of Mr. and Mrs. T. L. Sharp  
 from Friday until Monday.

Mrs. E. D. Harris and daughter Flo-  
 rence who are suffering with typhoid  
 fever at the O'Connor Sanitarium, are re-  
 ported able to sit up. The son Ira while  
 improving is still confined to his bed.

Mrs. B. Campbell, Mrs. H. M. Parker,  
 Miss Ingles, Mr. Newton Finley, and the  
 Misses Margaret and Laura Blaine went  
 to Capitola last Tuesday, where they all  
 will be domiciled at the Campbell cot-  
 tage.

Mrs. Rubell, her daughter, Claudine,  
 and Harold Marshman left Monday for  
 Monterey where they will visit for two  
 or three weeks with Mrs. Rubell's  
 daughter, Mrs. Smith. They stayed at  
 Santa Cruz for a few days to visit at the  
 home of Mrs. Rubell's mother.

Miss McQueer of San Francisco, who  
 is visiting with Miss Mary Lewis, was  
 the guest of honor at a little party at the  
 home of the latter last Tuesday evening.  
 Dinner was served at 6:45, and the  
 evening spent in a very enjoyable man-  
 ner. Those present were Miss McQueer,  
 Mrs. Mary Palmer, the Misses Bessie  
 Palmer, Ernestine and Beth Kennedy.

#### Prune Pickers Needed

There seems to be a shortage of help  
 for gathering the prunes this year. Sev-  
 eral families have reported that they are  
 unable to get pickers. This may be due  
 largely to the fact that so many Japs have  
 left the community. Mrs. Wait says  
 there are not near as many getting mail  
 here now as formerly.

## FARM IMPLEMENTS

Buy The Best—It Pays

When you're ready to buy new farm implements  
 weigh every fact well. Study the materials, investi-  
 gate the construction, look well into every detail that  
 makes for strength, durability, and economy.

We've stocked our ware-rooms with implements  
 that will bear this kind of an examination. The best  
 makes are represented. You can't go wrong on a  
 plow, cultivator, harrow, or any other implement  
 bought at the Farmers Union.

In addition to farm and garden implements, we  
 carry an immense stock of hardware, groceries and  
 provisions, crockery, and everything for farm and  
 home except clothes and shoes.

Mail orders carefully filled. Write for quota-  
 tions. We can save you money.

### Orchardists, Attention

We sell Extract of Tobacco, Sulphur, Lime, Salt, Etc.  
 Protect your trees from the ravages of scale and pests.

## Farmers Union

Santa Clara County's Greatest General Merchandise Store  
 San Jose Branch at Campbell

## The Big State Fair

Sacramento, August 26th to  
 September 2nd, 1911

The program and arrangements now completed settle it that  
 the State Fair this year will be the biggest and best ever held in  
 California. Besides the largest industrial and livestock exhibits,  
 the biggest purses and best races, the program includes:

#### Military Bands

#### Chorus Singing

#### Nightly Horse Shows

#### Thrilling Fireworks

#### Famous Aviators

and Daring Daily Feats by Dare-Devil Cowboys from all over America

SPECIAL RATES ON ALL RAILROADS

## NOBLE'S ALTERATION SALE

### Men's, Women's and Children's Shoes at Cost

In a few days our store will be turned over to a crew of carpenters to be entirely made over and remodeled. We have but a few short days in which to get  
 as much of our immense stock as possible out of the way. The more we have left when the workmen begin the more trouble we'll have stowing it away and keep-  
 ing it out of the way of dirt and dust and grime.

We had not counted on the remodeling to begin so soon, and consequently we are caught with the bulk of our fall purchases on hand. But final notice has  
 been given and the workmen will soon be hammering and sawing and pounding away. There's nothing for us to do but cut the stock as much as we can, placing  
 on sale every shoe in the house regardless of its kind, size or style. We are willing to pay you—and pay you well—to help us make ready for the alteration work.  
 Just read the prices. If ever there have been real shoe values offered in this county, here they are.

#### \$5.00 Shoes

About five hundred pairs of  
 Edwin C. Burt's shoes in  
 patent leather and tan calf.  
 Made in 14-, 16-, and 18-but-  
 ton styles. Short vamp effects  
 with the new bulldog toe. On  
 sale at

**\$3.95**

#### \$5.00 Shoes

Three hundred pairs of J. & T.  
 Cousins shoes in all leathers  
 and styles. The Cousins im-  
 print on a shoe is enough to  
 satisfy every doubt as to quality  
 of material and character of  
 making. On sale at

**\$3.40**

#### \$5.00 Shoes

English Cravenettes—war-  
 ranted to hold their color.  
 Guaranteed genuine cravenette  
 and NOT POPLIN. These  
 English Cravenettes are ex-  
 tremely popular. Excellent  
 values at the regular price. On  
 sale at

**\$3.95**

#### \$4.00 Shoes

American Cravenettes in fast  
 color. They're genuinely  
 waterproof. The acme of  
 smartness. As dressy as any  
 shoe on the market. At four  
 dollars they've been some of  
 our best sellers. On sale now  
 at

**\$3.05**

#### \$4, \$5, & \$6 Shoes

Velvet button shoes in brown  
 and black. New Velvet shoes  
 are riding the very crest of  
 favor. These are actually four,  
 five, and six dollar values. To  
 get them out of the way at  
 once we've marked them

**\$2.70**

#### Extra Special

Every pair of men's and boys' shoes in the house  
 will be put on sale tomorrow. Prices are lower than  
 ever before quoted on shoes of the same quality.

Any \$6.00 Stetson now at **\$4.75**  
 Any \$5.00 value now at **\$3.85**  
 Any \$4.00 value now at **\$3.05**

These are but three of the items from many just as  
 good.

Any man who misses a chance to buy shoes at  
 this sale, either doesn't realize that we are actually cut-  
 ting prices just as we advertise or else he had shoes  
 enough to last for six to eight months ahead.

These are all well-known makes—not "nameless"  
 seconds.

#### Children's Shoes

**Children's Shoes**—All kinds and makes. Every  
 pair of children's shoes in the house except Pla-Mates is included  
 in the reductions following:

\$1.25 Shoes on sale at **\$ .95** \$1.50 Shoes on sale at **\$1.15**  
 \$1.75 Shoes on sale at **\$1.30** \$2.00 Shoes on sale at **\$1.45**

**Pla-Mate Shoes for Boys and Girls.**  
 There is probably not a mother in San Jose who is not acquainted  
 with Pla-Mate shoes, so we need add little to what they already  
 know. Enough to say they're on sale at the following prices:

\$1.75 Shoes, Sizes 6 to 11, at **\$1.35 a Pair**  
 \$2.25 Shoes, Sizes 11½ to 2, at **\$1.70 a Pair**

#### Extra Special

Here's a lot of some twelve hundred pairs of shoes  
 in many different styles. They come in lace or button  
 effect with high or low heels. They are

**\$3.50, \$4.00 and \$5.00 Values**  
 Now Offered at **\$1.65 a Pair**

Not all sizes, but if you come early you'll proba-  
 bly find a pair to fit. If you can find your fit in the lot  
 you'll buy better shoes than you ever saw advertised be-  
 fore at such a price.

This particular lot alone would make a highly in-  
 teresting sale. But it is just one of the big features of  
 this remarkable event.

**NOBLE'S SHOE HOUSE, 86 South First Street, SAN JOSE**
